

16 DAYS OF ACTIVISM
END VIOLENCE
AGAINST WOMEN
NOW!

Webinar • Tue December 7 • 10am–noon

Stop coercive control in its tracks!

Violence against women (VAW) affects women in our work and personal lives. Therefore, it is important to understand the issue of VAW, particularly the forms of abuse that are often difficult to recognise, such as coercive control (a pattern of behaviours used by an abuser to control their partner and create an uneven power dynamic).

As part of our *16 Days of Activism campaign* SSI will host a webinar to raise awareness on coercive control.

**We encourage you to join us and together
we can create a safer society for women and girls.**
